THRU

: Chief, Industrial Division
Chief, Electrical Equipment Branch

25X1A2g

Request for Requirements, CRR No. 10438

1. Please provide a brief description, summarize approximate performance data, and give the name and/or type designation of:
 - a. Radar sets employed in the Soviet Merchant Fleet.
 - b. Radio communications sets employed in the Soviet Merchant Fleet.
2. Can source give the unit ruble price for any radar or radio communications sets, as purchased for the Merchant Fleet?
3. Give the type number and brief description of all special-purpose electron tubes used in the radar and communications sets - including transmitting tubes, magnetrons, klystrons, high-voltage rectifiers, modulators, and cathode-ray indicator tubes.
4. To the extent possible, indicate the manufacturer or describe any equipment factory trade-marks for radar sets, communications sets, and special-purpose tubes.
